◇ XProtect Professional

Comprehensive surveillance for mid-sized companies

milestone

XProtect Professional is comprehensive IP video surveillance for businesses and institutions looking for a complete overview of surveillance. With support for interactive graphical maps showing camera locations, XProtect Professional is ideal for users who need to proactively address incidents. Alarms displayed directly in the maps make it easy to quickly identify and address incidents throughout the system. If an incident occurs, efficient video search tools enable users to easily find relevant video clips and export evidence.

◇ Complete visual overview

Users can easily gain a complete overview of campus-style installations with multiple buildings from a single interface displaying multi-layered maps with all camera locations.

◇ Instant alerts

The Alarm Manager prioritizes all active alarms making it easy to visually verify whether or not unwanted behaviors occur, even in busy installations with heavy foot traffic.

◇ Easily expand

With support for unlimited cameras and servers, XProtect Professional can easily expand as business needs change and grow.

Universities

XProtect software ensures security officials can monitor the safety of students, staff and visitors on campus. Integrated access control ensures that only students or staff with valid IDs can enter campus buildings.

What's new in 2014

Simple upgrade

New licensing flow significantly reduces steps and time involved when upgrading to a more advanced Milestone solution and when updating the VMS to the latest version available.
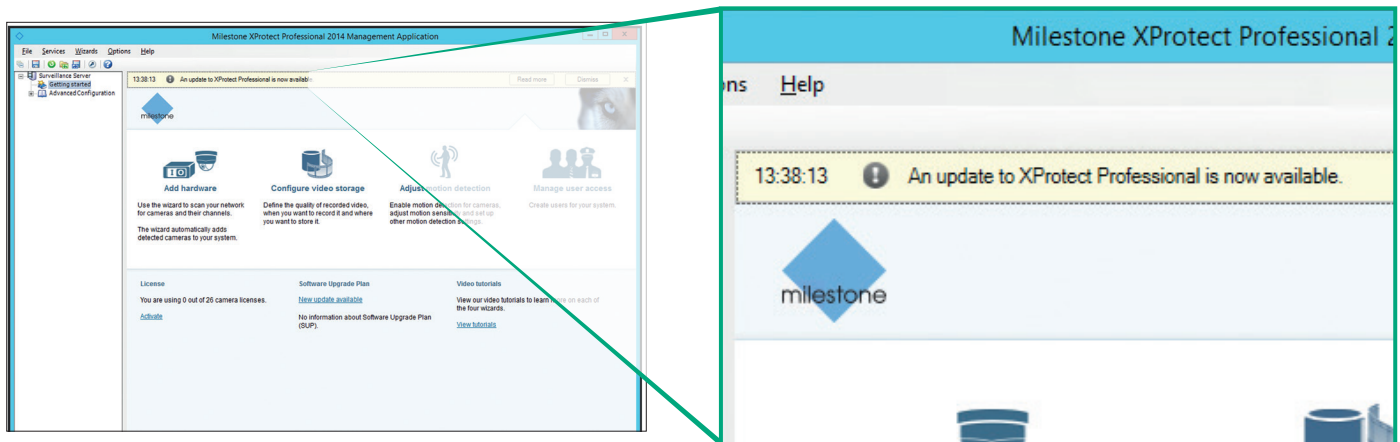

Easy to deploy

All XProtect Professional VMS Products use the same installer, which simplifies the deployment process.

Update notifications

Users are automatically notified about new software versions, ensuring they are always aware of the latest product updates, capabilities and bug fixes.

Automatic motion detection adjustment

Adjusts the sensitivity level to optimize motion detection for background noise levels in the video stream.
